Upcoming Events

- June 26/27 Water Days
- July 1: Face Painting
- July 4: NO SCHOOL
- July 8: Make Binoculars/ Scavenger hunt
- July 16: Dress like an explorer

Welcome July!

June just flew right by us. We had lots of fun learning about the farm and milking a cow. The students loved being able to go inside a real tent and read. We explored the great outdoors, and even learned about some new plants.

For the start of July, we will be heading to the carnival! The students will get to explore all the things you can do at the carnival and take a look into the people at the carnival. We will have a day where we can play around with some face paint, and also play a few carnival games. It will be a time where the kids can let loose a little, while still learning.

For the remainder of July, we will be going on a safari. We will be making binoculars and exploring all the animals you can see on a safari. We will even get to dress up as an explorer as we go on a scavenger hunt in our outdoor classroom! I am very excited to get to spend this next month with your children. We are going to have so much fun!

-Ms. Griffiths
