

## June 2021 Newsletter- PK5

### News

Summer, Summer, Summer! This month will be full of fun and learning. We are asking all parents to apply sunscreen to their children every morning and the teachers will apply the sunscreen in the afternoon. Please, also remember water bottles go home Friday to get washed and come back Monday. Congratulations to our preschool graduates Alaina, Aubrey, Beckett, Clara, Emery, Preston, and Kaiden. They have worked so hard for this and I am so proud of each and everyone of them. Graduation will be held outside by stage. Please bring lawn chairs or blankets to sit on.

### Curriculum

This month, we will be diving into nature head on. We will begin with bumblebees and then we will start to reintroduce camping. We will begin learning about the bumblebee's lifecycle. Then, we will go over the parts of the bumblebee, what they eat, where they live, and how bees help our world. After we learn about bees we will then move on to camping. They had so much fun last year so we decided to bring it back. If you have any camping supplies the class could borrow please bring it the week of June 14th. The children will also practice building tents and making s'mores. We will begin learning what to pack on a camping trip. We will also be going over fire safety. We will continue to work on our sounds. Our older children who are ready will continue practicing sight words and sound blends. We also have some arts and crafts planned for the month of May.

### Important Dates

June 1-- Becket turns 5!

June 4- Graduation Day!

June 20- Father's Day!

June 24- Preston Bailey turns 5!
