- *February 14: Valentines Party!*

Welcome February!

This year is already moving so fast. January was filled with discovering who we were, and who we want to be. The children had so much fun doing their timelines, and showing all their friends pictures of what they used to look like.

In the month of February, we will be focusing on our feelings for the first half of the month. The goal by the end of this lesson will be to interpret how we are feeling, and why. I hope for the students to be able to put a name to the feeling that they are feeling. We will also learn how to be a good friend, and comfort a friend in need.

For the remainder of February, we will be learning dental health. We will practice flossing, brushing our teeth, and learning
