

# Toddler Newsletter

~October 2020~

Welcome to the wonderful month of October! I'm super excited to be officially entering the fall season with the toddlers!

We have been working on our classroom routine now that we are back in the school year. The toddlers have been learning how to wash their hands after diaper changes and before and after mealtimes, practicing their clean-up skills, playing outside on the playground, as well as meeting some new friends. This month we are welcoming a new toddler named Tessa into our classroom: Welcome Tessa! I'm sure that the other tots will be happy to show her around the toddler classroom.

Our theme for the past month, besides getting into the school year routine, has been House Pets. The toddlers made their very own goldfish bowls with real goldfish crackers glued to them. They enjoyed that art project, although it did end up turning into a mini snack as well. They have learned the difference between spots and stripes on our different house pet animals, such as dogs and cats. The toddlers also enjoyed coloring different house pets and "walking the dog" (dog pull-toy).

This month we will get into all things fall and during the last two weeks of October we will be doing some fun Halloween themed arts and crafts.

As we enter into a season of cooler weather, please remember to send your toddler to First School prepared to go outside with a warm jacket depending on the weather. Thanks!

Let's have a great month!

Sincerely,

Ms. Ortiz
